November Adventures

November 4: Hunting in Autumn. November is an exciting month for the outdoors and the outdoorsmen. The first day of November is officially the first day of the waterfowl hunting season. The weather is cooler, and the days are short. The ducks and geese are moving south to wintering areas, and the weather is perfect for a day out in the fields and woods. The first day of the season is the most important day of the hunt and is always packed with excitement. You can join us as we explore the woods and fields and learn about the history of hunting in Maine. 

November 6: Digital Citizenship. Do you want to know more about the dangers of digital citizenship? Are you interested in learning how to protect yourself online? This program will teach you how to be safe online and protect your personal information. 

November 9: Winter Wildlife. Join us as we explore the winter wildlife of Maine. We will be looking at the animals that survive in the harsh winter conditions and how they adapt to the cold. 

November 12: Omnivores. Omnivores are animals that eat both plants and animals. They are very important in the ecosystem and help keep the balance of nature. Join us as we explore the world of omnivores. 

November 16: Safe Harbor. Safe Harbor is a program for children ages 5-12. Join us as we explore the world of birds and bird watching. We will learn about different types of birds and how to identify them. 

November 19: Carnivores, Herbivores and Omnivores. Carnivores, Herbivores and Omnivores is a program for children ages 5-12. Join us as we explore the world of carnivores, herbivores and omnivores. We will learn about the different types of animals and how they get their food. 

November 21: Exploring the Sun Inspires Wonder. Join us as we explore the wonders of the sun. We will be looking at the different types of suns and how they affect the world around us. 

November 23: Looking at the Sun Inspires Wonder. Join us as we explore the wonders of the sun. We will be looking at the different types of suns and how they affect the world around us. 

November 26: Old Time Toys. Old Time Toys is a program for children ages 5-12. Join us as we explore the world of old-time toys. We will learn about the history of toys and how they have evolved over time. 

November 28: Explore Mammals. Explore Mammals is a program for children ages 5-12. Join us as we explore the world of mammals. We will learn about different types of mammals and how they are adapted to their environment. 

November 29: What do animals do during winter? Join us as we explore the world of animals and how they survive during the winter. We will be looking at different animals and how they adapt to the cold.
